Publication Title:

HEAD FOR GOLF CLUB

Abstract:

Abstract of JP2001087430

PROBLEM TO BE SOLVED: To provide a head 1 for golf clubs which is provided with a cavity 5 of a recessed part form on the back of the head 1 having a face and with which the face may be reinforced, the deformation of the clubface when hitting a ball may be thereby prevented and a good ball hitting feel may be assured. SOLUTION: The cavity 5 of the head 1 for golf clubs which is provided with the cavity 5 of the recessed part form on the back of the head 1 a face is provided with a rib 6 for making the bending in the central part of the face when hitting the ball difficult.
